

Meet Lil Max ... MIFAB's Newest Interceptor Product

We are pleased to announce the "Lil Max" line of Plastic Grease Interceptors backed with a limited lifetime warranty. MIFAB's unique design provides the contractor with specific design features that will make installation easier and less expensive.

Key Features:

- *8 different sizes and flow rates (7 to 50 GPM) to meet virtually any user need*
- *3 in 1 design allows for Lil Max to be used for Grease, Oil and Solid interception*
- *Low Wholesaler Minimum Order requirements*
- *External vented flow control included*
- *A light weight ribbed body design provides structural integrity for in ground or above grade installations*
- *Engineered with side circular flat surfaces to receive side inlet piping to enable the same body to be converted into an oil interceptor (for the oil draw off valve)*
- *Extra wide finger opening space on the lid latches to make it easier to open the lid.*
- *Made in USA*
- *Approvals from PDI, ASME, UPC, and CSA*
- *A limited Lifetime Warranty*
