FLOOR MOUNTED SERVICE SINK CARRIER WITH FITTING

Specification: MIFAB® Series MC-62 floor mounted service sink carrier with two lacquered 2" x 1" x 1/8" thick structural steel uprights with 3" x 4 1/2" welded steel feet, and lacquered cast iron fitting with no hub waste and vent connection (specify size of each). Complete with lacquered cast iron faceplate assembly, adjustable 8" tapered thread ABS nipple with integral test cap, neoprene bowl gasket, hardware, threaded rod protectors and polished chrome plated finishing cap nuts.

Function: Used with off the floor wall urinals and service sinks that are wall mounted and have no contact with the finished floor. Typically installed in utility, emergency and clean-up rooms. The closet carrier and fitting is completely concealed within the wall and supports the load of the fixture through a faceplate and foot support system that is anchored to the floor. Sanitation underneath the fixture is more efficiently and economically maintained when installed off of the floor compared to floor mounted.

Note: Foot supports and faceplate are assembled at the factory before shipment in the typical siphon jet water closet configuration and are reversible for the blowout water closet design.

Note: 8" tapered thread ABS nipple shipped standard with MC-10 Series carriers. The universal faceplate assembly accepts all nipple variations, rolling thread (-OR), cast iron (-CI) and tapered thread ABS with adjustable horn (-AH).

MODEL NUMBER	A	B	C
MC-62-3-V2	4 3/4" (89)	5 1/2" (140)	5 7/8" (125)
MC-62-4-V2	4 7/8" (100)	5 1/2" (140)	7" (156)
MC-62-4-V4	4 7/8" (100)	5 1/2" (140)	7" (156)

MODEL NUMBER CHART	
MC-62-3-V2	3" waste fitting, 2" vent
MC-62-4-V2	4" waste fitting, 2" vent
MC-62-4-V4	4" waste fitting, 4" vent

SUFFIX	OPTIONAL VARIATIONS
-AH8	8" ABS nipple with adjustable horn
-AH12	12" ABS nipple with adjustable horn
-BA	Minimum 51% material cost made in the USA
-CI-4	4" rolling thread cast iron nipple
