

Stainless Steel Dialysis Boxes

To our wonderful Representatives,

June 27, 2018

The new DB-2018 Lifeline dialysis box product booklet goes into effect August 1, 2018.

The DB-2018 replaces the DB-2016.

There is an approximate 20% List Price increase in the DB-2018 product List Prices from the DB-2016 List Prices. The significant increase in stainless steel prices and other raw materials used to manufacture Lifeline dialysis boxes is the reason for this increase.

The discount structure off of the DB-2018 remains the same as it is now per customer off of the DB-2018 List Prices.

All current quotations for the products in the DB-2016 booklet will be honored until July 31, 2018. Effective August 1, 2018, the new List Prices in the DB-2018 are in effect.
