

Location: _____

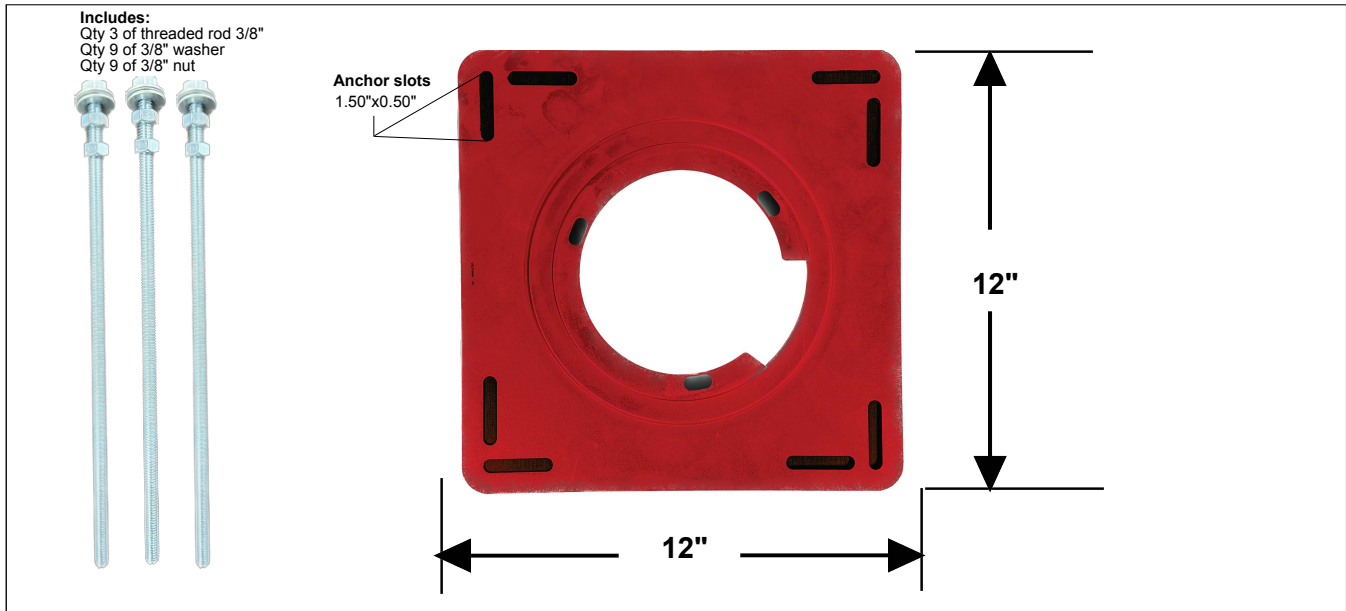

A1-BP

**BEARING PAN / SUMP RECEIVER
FOR R1100 ROOF DRAINS**

Specification: MIFAB® A1-BP, 12" x 12" 18 gauge steel bearing pan / sump receiver. Included with the A1-BP is a quantity of three 16" threaded rods and hardware for optional roof drain extension.

Function: Center recess of the A1-BP is designed to receive the top flange of the A1 body. The A1 body flange is placed into this recess to ensure easy flow of water from the roof deck into the sump of the roof drain. The three 16" long threaded rods and hardware provided permits the A1 body to be elevated off of the roof deck to meet the insulation thickness above the deck. Hardware is also provided to bolt the A1 body to the A1-BP so that the typical underdeck clamp is not required.
