**AIR GAPS
1/2" THRU 10"**

Specification: Beeco Air Gaps are custom made to fit onto the relief valves of all Beeco Friendly Reduced Pressure Backflow devices.

Function: Beeco Air Gaps provides the unobstructed, physical separation between the discharge end of a potable water supply line and an open receiving vessel.

Features: Easily attaches to the Beeco FRP relief valve and has a female discharge connection for ease of piping to a drain.

Material: The Beeco Air Gaps are made of Cast Iron and fused bonded epoxy coating to keep them rust free.
