AP

AIRPORT SUPPORT SYSTEM

- Non-penetrating, economical, lightweight support
- Grooved, recessed tray design
- Sound and vibration deadening
- Proprietary free-flow leg system
- Supports HVAC and electrical equipment
- Built to last — UV resistant for tough outdoor conditions
- Suitable for most types of roofing materials and flat surfaces

Function: The AP Series is designed to provide support for all electrical and HVAC equipment. Grooved recessed tray prevents movement and dampens vibration. Allows water passage; prevents growth of moss and mold. Lightweight. Consult roofing manufacturer or engineer for roof loading.
