Re: List Price and Net Price increases - effective November 1, 2021

Beeco2019-07

Dear Valued Customer,

MIFAB is announcing a Price increase for the Beeco Product line due to the increases in raw materials and worldwide shortage of Copper, and other materials and transportation costs that we are experiencing. These price increases will also apply to all Net prices for these products. We will not be publishing a new catalog the BEECO-2019-07 is still in effect. All Multipliers on all net sheets will go up 5% and all Net Prices on all sheets will go up 5%.

We are doing our best to absorb as much of the cost increases that we are receiving as possible to keep the price increases as reasonable as possible. All current Beeco quotations must be registered with your MIFAB representative; entered as orders and released for shipment on or before November 1, 2021, for current price protection. All new quotations and orders entered on and after November 1, 2021, will reflect the new price increases for all the Beeco products.

Thank you in advance for your continued support and understanding in this matter.

Sincerely,

*Paul Lacourciere*

Paul Lacourciere Vice President Beeco Backflow
