CAST IRON HORIZONTAL BACKWATER VALVE WITH STAINLESS STEEL FLAPPER

Specification: MIFAB® Series BV1000 lacquered cast iron backwater valve with no hub inlet and outlet, gasketed bolted cover, and automatic stainless steel flapper type backwater valve.

Function: Used in main branch or sewer lines to prevent backflow from the sewers. Full opening access through cover to the flapper assembly for repair and maintenance.

Note: Do not use for pressurized applications; for gravity flow only. Backflow protection is prevented when the valve is obstructed by debris or sludge; clean regularly.
