

**BIG MAX® GREASE INTERCEPTORS WITH INTERNAL BAFFLE**

Some authorities and jurisdictions require the use of an internal baffle within the grease interceptor. MIFAB® offer this option (Suffix -IB) for the BIG-750 and BIG-1150 grease interceptors. The internal baffle is shipped separate from the interceptor and needs to be installed on site.

BIG-750-IB - with internal baffle

BIG-1150-IB - with internal baffle

**Extensions:** Extensions are typically required when the interceptor is buried into the ground and the inlet is lowered to meet the waste piping from the fixtures. In such a case, the lid needs to be “extended” up to the ground or grade level. With MIFAB’s patented extension system every lid ships with an 18” x 18” piece of ADS corrugated pipe which provides the installer with up to a 24 1/2” “C” dimension. If a greater “C” dimension is required, the contractor has the option to purchase an extension from MIFAB® or to buy a length of ADS pipe from their local waterworks wholesaler in order to complete the installation immediately. This also means that the cost of the MIFAB® extension (when ordered from a local waterworks wholesaler will be significantly less expensive that buying the same height extension system from others). In addition, extensions from others are only available from that specific manufacturer – resulting in delays and time for production and shipment to the contractor. Flexible extensions make for easier installation where grade may be unlevel.

BIG-1150 illustrated with the -C extension

ADS pipe gasket illustrated. It is provided as standard with every piece of 18” diameter ADS pipe.

MIFAB® part # DWCP18-PG for the Big Max gasket (ADS part # 1859AG) and part # DWCP24-PG for the SuperMax gasket (ADS part# 2459AG). The ADS part # for their 18” corrugated pipe is 18N12) the part # for their 24” corrugated pipe is 24N12).

The gasket is assembled onto the ADS pipe - into one of the open grooves at the end of the pipe. The end of the pipe with the gasket is pressed into the top opening of the interceptor.
