LIL-SP

Lil-Max® – SAMPLE PORTS

Specification: MIFAB® LIL-SP HDPE sample ports come with a 3" no hub inlet and outlet and pedestrian load rated lid. Inline or offset options available.

Function: Several areas require the use of sampling ports to provide the local authorities an opportunity to retrieve and test waste water discharged from the grease interceptor to ensure that the FOG contained within the effluent is within requirements.

Model No.	Description
LIL-SP	External sampling port - inline
LIL-SP-OFF	External sampling port - offset
