

Location: _____

Lil-O

**Lil Max® – 10 to 50 GPM
HDPE Oil Interceptors**

Specification: MIFAB® Series Lil-(specify size)-O HDPE injection molded oil interceptor with flow rating of ____ (indicate) and oil storage holding capacity of ____ (indicate). Unit shall include: sediment bucket (1/4" diameter holes) with perforated baffle (3/8" x 1 1/4" slots) near inlet, deep seal trap covered by lid, sewer gas stopper, securing latches, stainless steel calibrated orifice plate, internal air relief by-pass, adjustable automatic draw-off assembly, double vent connection on each side, and HDPE injection molded, non skid, rectangular gasketed lid(s). For indoor/outdoor use.

Function: Oil interceptors are required anywhere oil and sand may be introduced to the public sewer system in applications such as: repair garages, oil change stations, car wash facilities, parking garages, parking lots, hydraulic elevator pits and facilities where oil and flammable liquid waste are produced as a result of manufacturing, storage, maintenance, repair or testing processes. The interceptor collects the oil before it is drained to an adjacent storage tank through an adjustable draw off system. Sediment and debris are collected inside of the internal sediment bucket. Regular maintenance is required to keep the interceptor functioning. Interceptor may be installed on the ground, semi recessed or flush with the floor. Sewer gas stopper prevents foul odors from entering the facility through the interceptor. Simple latch design permits fast and easy removal of the lid for cleaning and maintenance. HDPE injection molded body and lid are covered by a limited lifetime warranty. All Lil Max interceptors can withstand a temperature of up to and including 180 degrees Fahrenheit. Oil Interceptor for indoor/outdoor use.

MODEL NO.	FLOW RATE (GPM)	LIQUID CAP. (GAL/CU.FT.)	OIL STORAGE HOLDING CAPACITY (U.S.G.)	SAND CAP. (GAL)	A (IN)	B (IN) WIDTH	C (IN)	D (IN)	E (IN)	F (IN)	SHIPPING WEIGHT (LBS.) (IN BOX)	BOX DIMENSIONS (L X W X H)
Lil-10-O	10	8.5 / 1.1	5.6	.6	23	17.5	3.5	9.75	13.25	2	30	25" x 18" x 14"

Suffix	Description
-C	Extension "C" as required (up to 9" increments) (for models Lil-20-O and Lil-25-O) (contact MIFAB for other model extensions)
-C	Extension "C" as required (up to 9" increments) (for models Lil-35-O and Lil-50-O)
-COA	Coalescer pack
-F	Connection sizes different from standard (specify size) (by using a MIFAB MI-HUB increasing / reducing coupling).
-FLC	External, vented flow control fitting
-HD	Heavy duty 10 gauge steel lid (up to 2,000 lbs.) - see MI-CS cover shrouds from the MPB price book
-HLA	High level alarm and float switch (to be installed on site)
-HT	Holding Tank

-LHSI	No hub inlet on left hand side (not available with sediment bucket)
-POK	Remote pump out kit
-RHSI	No hub inlet on right hand side (not available with sediment bucket)
-RPO	4" Remote pump outlet connections on top of interceptor - specify location and number required
-SP-IN	External Sampling Port - inline (part # Lil-SP)
-SP-OF	External Sampling Port - offset (part # Lil-SP-OF)
-T	Female threaded connections

Note: Capacities listed are for reference. Many external circumstances can have an effect on the data provided.
