MC-23D

**DOUBLE COMPACT VERTICAL CARRIER
w/2" NH VENTS**

Specification: MIFAB® MC-23D Series double, vertical watercloset carrier with offset lacquered cast iron fitting, 4" (102) no hub waste, 2" (51) no hub vent connection, powder epoxy coated gasketed adjustable faceplates, adjustable 8" tapered thread ABS nipples with integral test caps, neoprene bowl gaskets, hardware, threaded rod protectors and polished chrome plated finishing cap nuts.

Function: Used with back to back water closets that are offset from a common stack by 4" in multi-floor installations where minimum pipe space is required. Typical for off the floor plumbing fixtures that are wall mounted and have no contact with the finished floor. The closet carrier is completely concealed within the wall and supports the load of the fixture through a faceplate and foot support system that is anchored to the floor. Sanitation underneath the fixture is more efficiently and economically maintained when installed off of the floor compared to floor mounted.

SUFFIX	OPTIONAL VARIATIONS
-D	Compact vertical water closet carrier, back to back with adjustable horn
