**MC-23**

**COMPACT, VERTICAL  
WATER CLOSET CARRIER**

**Specification:** MIFAB® Series MC-23 single, vertical compact water closet carrier with lacquered cast iron 3" (76) vertical in line fitting with 2" (52) no hub vent connection, lacquered cast iron faceplate, fabricated, powder epoxy coated steel foot supports, adjustable 8" tapered thread ABS nipple with integral test cap, neoprene bowl gasket, hardware, threaded rod protectors, polished chrome plated finishing cap nuts and rear anchor tie down support.

**Function:** Used with single water closets installed with the waste line below the floor slab. 5 1/2" overall depth is ideal for narrow chases. Typical for off the floor plumbing fixtures that are wall mounted and have no contact with the finished floor. The closet carrier is completely concealed within the wall and supports the load of the fixture through a faceplate and foot support system that is anchored to the floor. Sanitation underneath the fixture is more efficiently and economically maintained when installed off of the floor compared to floor mounted.

**MC-23 Series Meets ANSI/ASME fixture carrier standard A112.6.1M-97 500Lb. Load Rating**

SUFFIX	OPTIONAL VARIATIONS
-AH8	8" ABS nipple with adjustable horn
-AH12	12" ABS nipple with adjustable horn
-BA	Buy American Act compliant product
-CI-4	4" rolling thread cast iron nipple
-CI-6	6" rolling thread cast iron nipple
