MI-FLEX-CR

SLIP ON FLEXIBLE COUPLINGS

Specification: MIFAB® Series MI-FLEX-CR (specify size) of slip on flexible rubber couplings are manufactured from an elastomeric compound that meets the requirements of ASTM C564 and 300 Series of stainless steel clamps tightened with 5/16" Type 300 stainless steel hex head screws. The MI-FLEX-CR Series of slip on flexible couplings are tested and certified to ASTM Standard C1440 and CSA Standard B602 and listed with IAPMO. All models are also tested and certified to the S102.2-18 Standard method of test for surface burning characteristics of flooring, floor covering, and miscellaneous materials and assemblies (Smoke Test). All models are listed to the National Plumbing Code of Canada and relevant Canadian Standard(s) and bear the cUPC mark of conformity.

Function: MIFAB® MI-FLEX-CR Series of slip on flexible rubber couplings are used to connect various types of piping materials and diameters for a drain, waste and vent (DWV) system. For couplings with two bands, tighten 1-2, alternately until minimum 60 inch lbs. of torque is attained for each band. Tested to maintain 4.3 p.s.i. maximum line pressure (10' head pressure). Non constant temperature rating is 140° F.

MODEL NUMBER	PIPE SIZE	A		B		C HEIGHT
		MIN	MAX	MIN	MAX	
MI-FLEX-CR-2150	2" C.I. / Plastic to 1½" C.I. / Plastic	2.40" (61)	2.48" (53)	1.82" (49)	2.10" (53)	3.90" (99)
