# MI-HUB-TRTW

**SHIELDED TRANSITION COUPLINGS  
- THIN WALL PLASTIC TO SCHEDULE  
40 PLASTIC OR STEEL**

**Specification:** MIFAB® Series MI-HUB-TRTW (specify size) shielded transition couplings are manufactured with gaskets made from neoprene compound that meets the requirements of ASTM C564 housed inside a Type 300 stainless steel shield. Two Type 300 stainless steel clamps tightened with 5/16" Type 300 stainless steel hex head screws surround the shield to provide the sealing force. The MI-HUB-TRTW Series of shielded transition couplings are tested and certified to ASTM Standard C1460 and CSA Standard B602 and listed with IAPMO. All models are listed to the National Plumbing Code of Canada and relevant Canadian Standard(s) and bear the cUPC mark of conformity. Non constant temperature rating is 140 F.

**Function:** MIFAB's MI-HUB-TRTW Series of shielded transition couplings are used to connect thin wall plastic to Schedule 40 plastic or steel. For couplings with two bands, tighten 1-2 alternately until minimum 60 inch lbs. of torque is attained for each band, starting with smaller side. Tested to maintain 4.3 p.s.i. maximum line pressure (10' head pressure) All models are listed with I.A.P.M.O. (U.P.C.) 5/16" driver required to tighten bolts. All models are listed to the National Plumbing Code of Canada and relevant Canadian Standard(s) and bear the cUPC mark of conformity. All models are manufactured in compliance with ASTM #C1460 and CSA B602 Standards. Non constant temperature rating is 140 F. Stainless Steel Clamps and 5/16" hex head bolts are made from Type 300 Stainless Steel.

MODEL NUMBER	PIPE SIZE	A WIDTH	B WIDTH	C HEIGHT
MI-HUB-TRTW-440	4" Thinwall Plastic TO 4" Schedule 40 Plastic or Steel	4.36" (111)	4.44" (113)	2.13" (54)
