Re: Service Weight Gaskets - Net Price increase - effective January 15, 2022

Dear Valued Customer,

MIFAB is announcing a 10% Net Price increase for all of our POG-SW Series of Service Weight Gaskets due to the increases in raw materials and transportation costs that we are experiencing. We will not be publishing a new catalog. The NH-2021-10 is still in effect. MIFAB's local representative will send you revised pricing that is 10% higher than your current cost for our POG-SW Series of service weight gaskets.

We are doing our best to absorb as much of the cost increases that we are receiving as possible to keep the price increases as reasonable as possible. All current POG-SW Series of service weight gasket quotations must be registered with your MIFAB representative; entered as orders and released for shipment on or before January 14, 2022, for current price protection. All new quotations and orders entered on and after January 15, 2022, will reflect the new Net prices for the POG-SW Series of service weight gaskets.

Thank you in advance for your continued support and understanding in this matter.

Sincerely,

A handwritten signature in black ink that reads "Michael Whiteside".

Michael Whiteside
President
