

C1460-ASTM

APPROVED

Quick Hub Regular and Heavy Duty Couplings are the **only cast iron to cast iron** couplings that are also approved to connect ABS/PVC pipe to cast iron pipe as transition couplings.

- Quick Hub couplings cost less than traditional transition couplings.
- Simply place coupling on the pipe, gasket remains in shield.
- Same 60-80 lb. torque requirements as regular couplings.

Regular Duty

Heavy Duty

*Up to and including 8" sizes
