

Location:

Ductile Iron Heelproof Slotted Grate
to suit 4" clear opening channels

Specification: T100-PGE-4-HP ductile heelproof slotted iron grates are independently certified to meet Load Class E tested in accordance with EN 1433 134,800 lbs. 600kN. The grate length is 19.69" (.50 m). The grates utilize the patented "Clipfix" grate locking mechanism. The system (channel and grate) provides longitudinal shift protection.

CLIPFIX ADVANTAGE
The MEA polymer concrete and GRP channels are designed for our universal CLIPFIX grate locking mechanism. The system (channel and grate) provides longitudinal shift protection.
