T100-PGF-4-PX-13

Galvanized Ductile Iron Slotted
Grate to suit 4" clear opening

channels

Specification: T100-PGF-4-PX-13 galvanized ductile iron slotted grates are independently certified to meet Load Class F tested in accordance with EN 1433 (202,320 lbs. (900kN). The grate length is 19.69" (.50 m). The grates utilize the patented "Profix" grate locking mechanism. The system (channel and grate) provides longitudinal shift protection.

PROFIX ADVANTAGE

The MEA polymer concrete channels with ductile iron grates have been designed for our universal PROFIX grate locking mechanism. The system (channel and grate) provides longitudinal shift protection.
