**Grate Locking Bar Assembly for use
with T1320-FL**

Specification: MIFAB® Model T1400-PGL-STL is a grate locking bar assembly designed for use with MIFAB T1320-FL trench drain systems. The assembly consists of a metallic locking bar with a threaded center opening and associated fastening hardware. The locking bar is stamped with orientation markings to ensure proper installation and alignment during grate securement.

Function: Used to secure trench grates to the trench drain body. When installed, the locking bar engages the underside of the grate and trench body, allowing the grate to be mechanically fastened in place to resist movement, uplift, or displacement during service.

**Locking bar with
threaded center hole**

(2) Hex-head bolts
