TERMS AND WARRANTIES

WHOLESALE DISCOUNT:

Contact MIFAB® or your local representative for your applicable discount structure.

FREIGHT ALLOWANCE: Ex Works, MIFAB's Chicago, Illinois Factory or Manufacturer Representative's warehouse with full motor freight allowed on shipments of \$3,500.00 Net or more, within the continental U.S.A. and Canada, except Alaska, Hawaii and Puerto Rico. MIFAB reserves the right to choose the carrier and route of shipment. Alaska: Ex Works, Seattle, WA. Hawaii: Freight allowed on shipments of \$3,500.00 or more only when shipped from West Coast, U.S. Puerto Rico: Ex Works, Miami, Florida. There is no allowance for United Parcel Service, Federal Express or Shipment by air service. Full motor freight is allowed on shipments of \$3,500.00 Net or more, within the continental U.S.A. and Canada for any combination of BEECO, Counterline, No Hub Coupling, Trench Drain, Access Door and Trap Seal Primer products. Shipping dates are estimates and time of delivery is not the essence of the sale of the contract. Therefore, under no circumstances will MIFAB® have any responsibility on account of any delays in manufacture, transportation, or otherwise. Additional freight services such as construction site delivery, lift gate delivery service, re-consigned freight or notification charges, are not included in full freight allowance terms, and will result in additional freight charges.

QUOTATION TERMS: List Price and discount protected for 30 days from date issued by MIFAB®. Orders received within this period must be released for shipment within 30 days from date of purchase order, otherwise, prices will be those that are in effect at the time of shipment.

PAYMENT TERMS: Terms of payment are Net 30 days from the date of the invoice. All pricing in United States currency except for sales to Canadian customers which are priced in Canadian dollars. The Buyer shall pay all sales, consumers, and / or any other applicable taxes. Past due accounts will be subject to a 2% per month service charge from the date of the invoice. If any proceedings be instructed by or against Buyer under any bankruptcy or insolvency law, or if Buyer shall fail to make timely payment on this or any other order, or if, in MIFAB's judgment, Buyer's financial situation justifies such action, MIFAB® may, at its election, require payment in advance or cancel the order as to any unshipped item and require payment of its reasonable cancellation charges. If Buyer delays completion of manufacture, MIFAB® may elect to require payment according to percentage of completion. Equipment held for Buyer shall be at Buyer's risk and expense. In all cases, regardless of partial payment, title to the Products shall remain with MIFAB® until payment for the Products (including any notes given therefore) has been made in full. Should legal action be necessary to enforce payment of an unpaid invoice, the Buyer will assume full responsibility for any court costs and reasonable attorney fees. All orders subject to credit check and approval prior to shipment. Confirmed irrevocable letter of credit or cash in advance of shipment is required for accounts without an established line of credit. Minimum invoice amount is \$100.00. MIFAB® reserves the right to apply a minimum order charge to equal \$100.00. MIFAB's Accounting Department must be notified of potential pricing errors within 30 days of the invoice date. Any terms and conditions stated on Buyer's orders which are inconsistent with MIFAB's quotation and Terms and Warranties shall be of no effect.

RETURNED GOODS RESTOCKING CHARGE: Standard product may be returned within a one year period only with written permission from MIFAB®. All products in catalog are not considered Standard. Standard product to be determined by MIFAB®. Returned goods are subject to a 25% restocking charge, plus cost of reconditioning, if necessary, to make material saleable. Material must be returned to MIFAB® freight prepaid only after written permission from MIFAB® to accept the returned material. Buyer must provide copy of the original invoice on which the material was charged. The original outgoing freight cost to ship the order will be deducted from the credit. Credit allowance will be in the form of merchandise credit only-not cash credit which must be used within 12 months of the date of issue. The value of a return must total \$100.00 to qualify for credit allowance. No credit will be allowed for auxiliary tappings, discontinued, or made to order items. Products designated non stock and / or that have been specially made are not subject to return or cancellation.

LIMITED WARRANTY: MIFAB® warrants each product against defects in material and workmanship for a period of one year from the date of original shipment. In the event of such defects within the warranty period, MIFAB® will, at its option, replace or recondition the product without charge. This shall constitute the exclusive remedy for breach of warranty, and MIFAB® shall not be responsible for any incidental or consequential damages, including, without limitation, damages or other costs resulting from labor charges, delays, vandalism, negligence, fouling caused by foreign material, damage from adverse water conditions, chemicals, or any other circumstances over which MIFAB® has no control. This warranty shall be invalidated by any abuse, misuse, misapplication or improper installation of the product.

MIFAB® MAKES NO OTHER WARRANTIES EXPRESSED OR IMPLIED AS PROVIDED IN THIS LIMITED WARRANTY.

ILLUSTRATIONS OR TYPICAL INSTALLATIONS: The typical installations for various products in each product section are intended to illustrate the products and their options. Under no circumstances are they to be construed as recommended installation procedures. Consult local codes and project specifications for proper installation instructions.

ALL SALES SUBJECT TO MIFAB's TERMS AND WARRANTIES.

NOTE: Prices and terms are subject to change without notice and supersede all previous quotations. The right is reserved to change or modify product design or construction without prior notice and without incurring any obligation to make similar changes and modifications to product previously or subsequently sold. Contact MIFAB® for any clarification.

COUNTERLINE CRTS5-1 TOP SET RETRO-FIT GRATE & FRAME

MIFAB's CRTS5-1 retro-fit ring and grate is designed to be placed into any JaSaWaZ 5" round floor drain strainer. Simply remove the existing JaSaWaZ grate, place the CRTS-UR-1 universal ring into the recessed area of the strainer and connect it with the screws provided. The CRTS5-1 frame and grate can then be vertically adjusted and also adjusted side to side to meet the finished floor. Top Set retro-fit grate and frame product is also available to be placed into any JaSaWaZ (Josam, Jay R. Smith, Wade, Watts and Zurn) 6" round and 5" x 5" and 6" x 6" strainers.

MODEL #	OUTLET SIZE	LIST PRICE
CRTS5-1 or -3	5" Diameter N.B. (-1) or S.S. (-3) retro-fit ring & grate	\$64.00

FEATURES AND BENEFITS OF MIFAB'S TOP SET DRAINS

F100-CTS5-1 or -3

- Plastic cap provided as standard to protect strainer during construction. No need to tape over / clean off strainers.
- No shims needed. Side to side adjustment provided with three integral leveling screws.
- Standard vandal resistant allen key screws
- Up to 1" vertical adjustment after pour to match floor finish. Included within strainer. No need for coring plug and separate finish strainer.
- Strainer and body threads are standard 4" N.P.S.M. for easy use with any 4" N.P.S.M. threaded pipe extension. No proprietary threads like others.
- Membrane clamp optional. Always made from cast iron. No plastic clamps.
- MIFAB's A1 and A4 cast iron and PVC / ABS bodies are shipped standard with a 1/2" trap seal primer tapping and plug.

Phillips screwdriver (P2) needed to adjust Top Set screws.

MI-DA

CAST IRON CONNECTION FITTING FOR DECKS AND BETWEEN SLABS

Fixture mounting and connection fitting. The MI-DA secures drains to the slab / deck during rough-in. Provides easy access to integral connections when wood deck forms are removed or add to it for thicker slabs. Ideal for insulated and non insulated pipes. Cast iron construction allows for use as a firestop sleeve.

MI-DA products will be available July, 2025

C1440-TP ECONOMY TEST PLUGS

Specification: MIFAB C1440-TP Series of economy test plugs with galvanized steel flange, neoprene rubber gasket, and galvanized steel wing nut operating screw. Temperature rating of 0° - 125° F.

Function: Fits into cast iron and / or plastic pipe to seal the pipe opening. Operates within a 2 p.s.i. back pressure. Ideal for pressure tests of sewer pipes through test connection with hollow screw. The test plug offers a simple and quick installation by inserting it into the pipe end (spigot end or socket).

PVC FLOOR SINKS

PVC floor sinks are manufactured out of PVC material to provide the ultimate in sanitary design. PVC material has excellent resistance to chemicals such as the acids contained in fruits, vegetables and fats. The smooth, uniform surface is easy to clean and the floor sink will not chip or rust. PVC floor sinks are lightweight for easier handling, installation and transportation. MIFAB offers PVC floor sinks in either 8" or 12" square flangeless bodies with bottom dome strainer and with full, three-quarter or half PVC, nickel bronze or stainless steel grate configurations.

FS520-30

8" SQUARE x 6" DEEP PVC FLOOR SINK

PATENT #
9,458,616

Two removable quarter sections to have full, 1/2 or 3/4 grate all in one.

Bottom dome strainer included with every floor sink body (Starting April, 2025)

8" square x 6" deep PVC floor sink body, less flange, with loose set full PVC grate and bottom dome strainer.

MODEL #	OUTLET SIZE	LIST PRICE
FS522-30	2" PVC socket	\$130.00
FS523-30	3" PVC socket	\$130.00
FS524-30	4" PVC socket	\$130.00

Note: 4" outlet socket connection body fits into 4" PVC pipe and over 3" PVC pipe.

FS520-PG-30 grate only
\$38.50

"The MIFAB PVC floor sink 3 in 1 grate is a huge benefit to my customers. Being able to configure the grate from a full grate to a 3/4 grate or 1/2 grate is a reduction of inventory skews, and the wholesaler always has the grate that is needed for projects."

— Steve Calhoun, Principal, Blackjack Mountain Marketing, Inc., Little Rock, AR

FS720-30

MI-ROC SERIES

MI-ROC grease interceptors are manufactured with 10 gauge steel and coated with a powder acid resistant epoxy coating inside and out. Every interceptor has an F.I.P. inlet and outlet, cast iron drainage fittings to form a visible double wall deep seal trap, removable separator and filter screens, recessed, non-skid gasketed rectangular lid for in or above ground use, removable cross bar, securing bolt(s) and plugs for the outlet connections not required. No external or internal flow control is provided. The inlet is lower than the outlet. This results in water in the inlet piping that acts to slow water entering the interceptor.

"The MI-ROC grease interceptor is a great alternative to standard interceptors at an economical price."

– Tom Babcock, Kast Marketing, Chicago, IL

HY-1500
WALL HYDRANT BOXES

MIFAB's HY-1500 Series hydrant boxes feature a "drip lip" to drain water away from the wall to prevent unsightly staining. Standard with all of MIFAB's HY-1500-S hydrant boxes are four 1" x 1-1/4" slots on top and two sides of the box to receive the mounting brackets provided. Hardware is included to fasten the brackets to the box. The mounting brackets are designed to provide easy installation of the hydrant box onto the stud system for labor savings.

MI-TR
PVC SOCKET TRANSITION COUPLING

Ideal for below ground to above ground PVC pipe connections. The bottom of the MI-TR has either a 2", 3", or 4" PVC socket connection and the inside of the top of the MI-TR also has either a 2", 3", or 4" PVC socket connection. The MI-TR is placed over the PVC pipe. The included orange cover will seal the top. An identifying whisker sticking up from the top of the orange cap provides location identification after the concrete pour covers the orange cover. Channel lock guides in the top of the orange cover (protected by a sticker) provide a means for the contractor to use channel locks to remove the cover after the concrete poured over the cover is removed. Once the orange cover is removed, one can socket weld a PVC pipe through the top of the MI-TR to complete the under ground PVC pipe to above ground PVC pipe connection.

MODEL #	A	SOCKET DEPTH (B1)	SOCKET DEPTH (B2)	PIPE OD (C1)	PIPE OD (C2)	LIST PRICE
MI-TR-2	3-9/16"	1-3/16"	1-3/16"	2" SCH. 40 PVC	2" SCH. 40 PVC	\$66.00
MI-TR-3	5"	1-7/8"	1-7/8"	3" SCH. 40 PVC	3" SCH. 40 PVC	\$66.00
MI-TR-4	5 1/4"	2"	2"	4" SCH. 40 PVC	4" SCH. 40 PVC	\$66.00

1. POUR CONCRETE
**U.S. PATENT
#11,047,126**

2. REMOVE AND ATTACH THE UPPER PIPE

WITHOUT MI-TR MINIMUM DIM IS...

MEDIUM SWEEP STREET 90 FITTING

The MI-TR can also be used to receive a medium sweep street 90 fitting from the horizontal waste line from an off the floor water closet carrier fitting. The MI-TR will be installed in the ground, flush to grade, over PVC drain pipe. This allows one or two more water closet carriers to be installed and still have enough vertical space to connect the horizontal carrier fitting waste line with a medium sweep street 90 fitting to the MI-TR transition coupling.

CALIFORNIA PROPOSITION 65 WARNING. This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

POLYETHYLENE ROOFGUARD

MAKE ROOF DRAINS UNCLOGGABLE

APPLICATIONS:

* Ideal to replace existing roof drain domes on the roofs of schools, warehouses, factories, office buildings and any other building that has standing water on the roof due to clogged roof drain domes.

RoofGuard ELIMINATES STANDING WATER:

- Patented design increases surface area by up to 5x or more making a RoofGuard protected drain virtually uncloggable. RoofGuard SAVES \$\$
- RoofGuard works 24/7.
- Eliminates leaks and costly repairs caused by clogged drains.
- RoofGuard will replace any Roof Drain Dome Strainer up to 15" in diameter.
- Installation is fast, simple, and requires no tools.
- Removable Top allows easy access to drain and piping without detaching RoofGuard.

INSTRUCTIONS:

- Clean and remove all dirt, debris, and other loose material in area around the drain where RoofGuard is to be installed. After cleaning, if the area is wet dry it off removing as much moisture as possible.
- Remove and dispose of current drain dome strainer.
- Turn RoofGuard over and fill the Attachment Pods with an exterior adhesive such as Chemlink M-1 or equal. Make sure the Pods are completely full and overflowing with adhesive to properly bond.
- Turn RoofGuard over to install over the drain. Press firmly on top of the Attachment Pods to ensure good adhesion to the roof surface.

CAST IRON ROOFGUARD

In applications where a cast iron RoofGuard is preferred, MIFAB's model number RG2016DDC cast iron RoofGuard is ideal.

APPLICATIONS:

*Ideal to replace existing roof drain domes on the roofs of schools, warehouses, factories, office buildings and any other building that has standing water on the roof due to clogged roof drain domes. The cast iron RoofGuard ensures a long life. It is also positively bolted to the roof drain body and membrane clamp.

INSTRUCTIONS:

- The RoofGuard will retrofit onto any existing roof drain (MIFAB, Zurn, JR Smith, Wade, Josam or Watts body).
- Remove the existing roof drain dome. Remove the bolts from the membrane clamp ring one at a time and replace them with the provided hardware (MIFAB HS-19).
- Assemble the threaded rods into the body. Add the washer and nut onto the threaded rod, securing the membrane clamp ring to the body. Add another nut and washer to the threaded rod, one inch above the membrane clamp ring (adjusting nut).
- Repeat this process until all bolts on the membrane clamp ring have been removed and replaced.
- Place the RoofGuard over the drain body.
- Add a washer and nut to the top of all of the threaded rods in order to secure the dome. Cut the excess thread off of the threaded rods.

ALLSTAR® COVER

"I think the All Star covers are a great idea. For customers that use a lot of MIFAB drains it offers great benefits and is worth the investment."

– Lorenzo Tripodi, Principal, Noraqua, Sudbury, Ontario, Canada

MIFAB's new, patent pending Allstar® cover is available in 5" and 6" round sizes to work with any of MIFAB's 5" and 6" round floor drain and cleanout tops.

It is manufactured from recycled plastic and is designed to fit into any of MIFAB's A1 and A4 PVC, ABS or cast iron bodies.

Contractors fit the Allstar cover into the top of the MIFAB drain body before the concrete pour, install the bodies onto the pipe and advise the concrete contractors to measure the level of the concrete floor from the top of the Allstar cover.

After the concrete pour around the top of the Allstar cover, the Allstar cover is removed with a tool placed into the recessed slot in the middle of the cover and pried off.

The 4" NPSM threads machined into the top of all of MIFAB's A1 and A4 bodies are then exposed to allow the contractor to thread in any MIFAB 5" (use the 5" Allstar cover) or 6" (use the 6" Allstar cover) round floor drain and cleanout top into the top of the bodies. The tops can be adjusted to the finished floor.

There is only a 1/8" space around the outside diameter of the floor drain or cleanout top to finish off with grout.

The Allstar cover is approximately 3/4" high and is made from smooth plastic material with angled sides to ensure removal after the pour.

There are several advantages to the Allstar cover:

- 1) The contractor can avoid taping the floor drain and cleanout tops prior to installation to ensure that they are protected during the construction process. This eliminates time to tape the floor drain / cleanout tops and also eliminates cleaning time to remove the tape from them before the project is handed over to the client.
- 2) The contractor can avoid installing the floor drain and cleanout tops until the end of the project – reducing the risk that they will be stolen or damaged.
- 3) The floor drain / cleanout tops can be adjusted to the finished floor after the concrete pour.
- 4) The Allstar cover can be purchased separately from the floor drain and cleanout bodies.
- 5) The Allstar cover can be used over and over again.

THE MIFAB MODULAR SYSTEM

FLOOR DRAIN

AREA DRAIN

ROOF DRAIN

CLEANOUT

DYNAC

(DO YOU NEED A CLAMP?)

In 90% of today's "slab on grade" installations, there is no need for a membrane clamp, as there is no waterproofing membrane installed. Because MIFAB's unique design allows the strainer assembly to install directly into the throat of the drain body, the use of a membrane clamping collar is optional.

- This is an opportunity for cost savings.
- Why use a drain with a membrane clamp if it is not necessary?

THE MIFAB® MODULAR SYSTEM

"Using the MIFAB AllStar covers makes our drain installs clean, fast and easy. It saves time, and for the plumber, that means cost. Well worth the investment."

– Samuel Beliveau, V/P Plomberie, Groupe CEVEC, Drummondville Québec

PRODUCT FEATURE

MIFAB's 3 in 1 Floor Sink PVC grate assembly

MIFAB Product Purchased –
FS520 and FS720 Series PVC Floor Sinks

Wholesaler - Midsouth Plumbing and Electric Supply

Location – Jonesboro, AR

MIFAB Sales Agent – Blackjack Mountain Marketing

MIFAB Patent # - 9,458,616

"The new three in one grate for the PVC floor sinks have allowed us as a wholesale company to lower the amount of sku's that we have to keep in stock. Before we had to keep a full grate, a $\frac{3}{4}$ grate and a $\frac{1}{2}$ grate to be able to supply the customers with whatever configuration would be required for each job. Now one grate does it all. This benefits the plumbing contractor as well by always having the correct grate as required. They can now wait until the end of the job to make whatever configuration is needed. As we all know, jobs are constantly changing and this allows us to never have the wrong grate installed. This also brings a certain amount of safety to the job site. By keeping the floor sink covered with a full grate the possibility of someone stepping into the $\frac{1}{2}$ open portion is taken out of the equation.

I hope this helps and serves as our testimonial to the strengths of the three in one grate design from a wholesaler's point of view and some insight I've received from plumbers."

– Ronald Wheelless, Midsouth Plumbing and Electric Supply, Jonesboro, AR
