A DIVISION OF: MIFAB®

RPDA (2 1/2"-10") - Reduced Pressure Zone Backflow Preventer Detector Assembly

Barracuda (2 1/2"-8") - Double Check Backflow Preventer with Stainless Steel body

Barracuda (2 1/2"-8") - Reduced Pressure Zone Backflow Preventer with Stainless Steel body.

DCDA (2 1/2"-10") - Double Check Backflow Preventer Detector Assembly

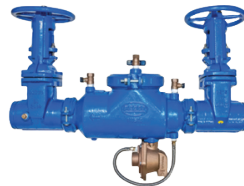

FDC (1/2"-2") - Double Check Backflow Preventer

FDC (2 1/2"-10") - Double Check Backflow Preventer

FRP (1/2"-2") - Reduced Pressure Zone Backflow Preventer

FRP (2 1/2"-10") - Reduced Pressure Zone Backflow Preventer

The BEECO® Series of Backflow Preventer assemblies and devices prevent hazardous pollutants and contaminants from entering the potable water supply system when back pressure and/or back siphonage conditions occur. These products are designed for plumbing, irrigation, waterworks, and fire protection applications.

BACKFLOW PREVENTERS

*USC APPROVED ARE: 1/2" - 8" DOUBLE CHECK BACKFLOW PREVENTERS (STAINLESS STEEL BODY) 2 1/2" - 8" REDUCED PRESSURE ZONE BACKFLOW PREVENTERS (STAINLESS STEEL BODY)

Design and dimensions are subject to modification.

BACKFLOW PREVENTERS

A DIVISION OF MIFAB

VACUUM BREAKERS

BEECO® Vacuum Breakers are designed for installation on potable water lines to protect against back-siphonage of polluted water supply.

HBVB - Hose Connection Vacuum Breaker

ASVB - Anti-Siphon Vacuum Breaker

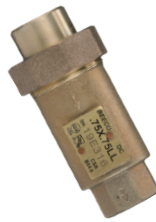

PVB - Pressure Vacuum Breaker

"MIFAB's plant is huge and they always have everything ready and available for us."

-Dan Thomas of Ben Thomas & Associates, Shade Gap, PA

DUAL CHECKS

DC - In Line Dual Check Valve

DCAV - Dual Check Valve with Atmospheric Vent

A DIVISION OF: MIFAB®

ACV-HF-T-PR - Automatic Control Valve - Pressure Reducing

ACV - Automatic Control Valve - Reduced Port

ACV - HF - Automatic Control Valve - High Flow

PG - Pressure Gauges

Every BEECO® Automatic Control Valve is hydrostatically tested to ensure peak performance and has standard features not found in other Automatic Control Valves

AUTOMATIC CONTROL VALVES
BEECO® Automatic Control Valves are constructed of ductile iron and are 100% coated with an extremely durable, high-quality electrostatic fusion bonded epoxy coating as standard. They are available in 1-1/2" through 24" Full Port (-HF) and 2" through 32" Reduced Port designs, with FNPT Threaded (-IPS), ANSI Class 150 or 300 Flanged (-HP) end connections.

Design and dimensions are subject to modification.

PRESSURE REDUCING VALVES

A DIVISION OF:  **MIFAB**®

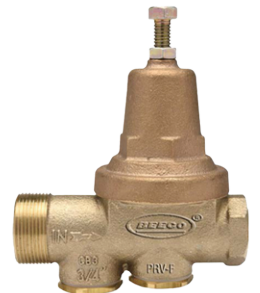

PRV-C (1/2"-1") - Water Pressure Reducing Valves, Composite Bonnet

PRV-C (1 1/4"-2") - Water Pressure Reducing Valves, Bronze Bonnet

JK - PRV Jumper kit

PRV-F (3/4"-1") - Water Pressure Reducing Valves (25AUB Replacement)

"Another manufacturer dropped the ball and I was able to get a BEECO ACV PRV quickly. The customer was skeptical because it looked different due to not having a bypass. The rep assured him it was not needed with a BEECO ACV and walked him through the installation"
-Brian Churilla, National Plumbing & Heating

Design and dimensions are subject to modification.

CHECK VALVES

BCV - Ball Check Valve

BCV-IPS - Thread End Ball Check Valve

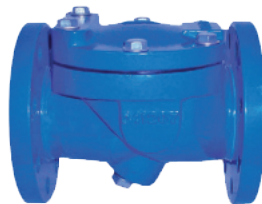

CV - Silent Check Valve

CV-FLG-RD - Swing Check Valve

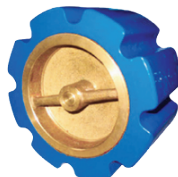

CV-FLG-RD-WS - Swing Check Valve w/ Lever & Weight

FCV - Flex Check Valve

SCV - Globe Style Class 125 FIG Silent Check Valve

WSCV - Water Silent Check Valve Class 125

"MIFAB Products are by far the best, easy to install and so well thought out. No other manufacturer makes their products so simple to use. MIFAB is the only way to go."

-Joe Boyle, Boyle Plumbing & Contracting, Inc.

Design and dimensions are subject to modification.

STRAINERS

A DIVISION OF: MIFAB®

STR (1/2"-2") - Bronze Strainer
(F.I.P. x F.I.P. and SWT. x SWT.)

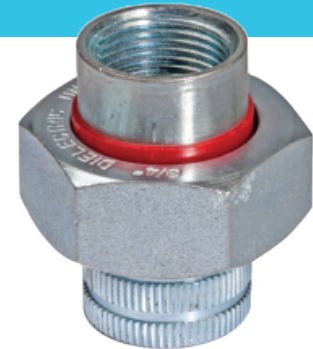

STR-DI (2"-12") - Ductile Iron
Flanged Strainer

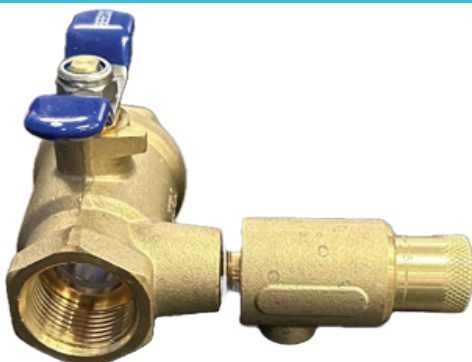

STR-PC (2"-12") - Ductile Iron
Powder Coated Flanged Strainer

DIELECTRIC UNIONS

BEECO's Dielectric Unions are rated to 250 psi (ANSI B 16.39). The body and nut are steel with a galvanized coating. The gaskets are EPDM, the insulator is nylon and the tailpiece is brass.

MI-CONTROL-LL WATER HEATER THERMAL EXPANSION CONTROL VALVES

The BEECO® MI-CONTROL is designed to be used where a water heater thermal expansion control valve is needed. Engineered to provide protection for the plumbing system against thermal expansion in the water heater.

Design and dimensions are subject to modification.

AIR RELEASE VALVES

AV-P-A - Air Release Valve

AV-P-K - Air and Vacuum Valve

AV-P-K-A - Combination Air Release and Vacuum Valve

"The BEECO Plastic Air Valves provide dependable service at a competitive price, without the weight and corrosion concerns associated with metal valves."

-William Dozier, CEO, Pioneer Supply Moore, OK

Design and dimensions are subject to modification.
