USC APPROVED

YES! You read that correctly.

ALL of our Double Check Backflow Preventers now have one of the most **IMPORTANT** approvals in the industry, University of Southern California (**USC**) **approval** in sizes $\frac{1}{2}$ " - 8".

$\frac{1}{2}$ " - 2"

FDC Backflow Preventer

- Screwed on access cover for quick repairs
- Modular design with less spare parts
- Self-contained check so there is no pressure on the lid

2 $\frac{1}{2}$ " - 8"

Barracuda-20

- All stainless steel body and cover
- Shortest lay length on the market
- Lightest devices on the market
- Best flow curves at working pressure
