TIME SAVING COUPLINGS

[https://youtu.be/ZVYhHt1Ph\\_U](https://youtu.be/ZVYhHt1Ph_U)

**40%** LABOR SAVINGS

PATENT # 10100956

### NO MORE LOOSE SLEEVES

From the box to the pipe without losing the shields. Save time from the start. Never fumble the shield again with QuickHub.

### MI-HUB COUPLINGS SHIELD ON PIPE

**STANDARD CLAMP**

Fastest installation in the market. Fits easy and effortlessly onto pipe. No need to roll gasket. No need to waste time with a loose shield. Fast !

### QUICKHUB MOUNTED ON PIPE

**QUICKHUB CLAMP**

With QuickHub, the contractor simply pushes the coupling onto the pipe. There is no need to remove the gasket first and roll it over the pipe. QuickHub is tested and certified to ASTM C-1277, CISP 310-2010, CSA B602-2010 and is listed with I.A.P.M.O. Available in sizes from 1 1/2" to 12".

### QUICKHUB COUPLING

One can see in the above image of the QuickHub the four sealing ribs on the inside of the neoprene rubber gasket material. This patented hourglass shape design ensures that the gasket remains within the shield during shipping and handling and allows the QuickHub to be easily pushed onto the pipe.
